Through various crime scene photos participants will look at all the evidence to determine and professionally analyze a crime scene. A fingerprint mutilation segment is shown on how criminals try to disguise identification. We will play a Myth vs Fact game to determine your understanding of evidence and questions are encouraged for this unique opportunity to ask a forensic scientist those tricky questions. Our instructor, Lynne

Dean, was a Latent Fingerprint Examiner for 35 1/2 years at King County Sheriff, Seattle, Washington and has qualified as a Forensic Scientist. For over 9 years she has instructed a 5 credit Fingerprint Science Class at Green River College in Washington. She has also attended FBI Police Academy, Quantico, Virginia for a 3 week course in comparison of fingerprints. After spending over half her life in the field of fingerprints, crime scenes, and processing evidence, fingerprints have become a literal part of her. Her enthusiasm for work in the field of fingerprint forensics comes through during her presentations.

Summer Academy Classes

Summer Academy is a FREE opportunity for Boys & Girls, Grades 1st-8th to participate in their choice of classes during 3 weeks in June. Children can participate in one or in as many classes as they would like. Classes sizes are limited and we will not extend beyond these limits. A waiting list will be created once a class is filled. Registrations are not completed until they are in the computer software. For this reason, we highly encourage you to register ONLINE to secure your child(s) spot in our classes.

Class content will not change from week to week, therefore, we ask that you do NOT sign your child up for the same class week to week. Select classes do have a supply requirement that will be listed within the class description that we ask you respect. To make sure class content is age appropriate, age groups will not be negotiable. 'R' Recreation staff will be available in between classes to assist children if needed, but it is expected that children will be able to walk to and from each class on their own.

We could not be more excited about this summer and all the fantastic classes that are being offered. Our instructors truly stepped up their game and are bringing creative, fun, and intriguing classes that will leave your child never wanting to leave.

Look forward to seeing you this summer!

-R Recreation

THANK
YOU!
